

Psych 350 Project 1

Grading Rubric

	Points Possible					Extra Credit Points up to 4
	5	10	15	20	25	
	Does not address the question.	Addresses some but not all of the question and poorly written.	Addresses some but not all of the question but well written.	Addresses all of the question but poorly written.	Addresses all of the question and well written.	Thoughtful, introspective. Above and beyond expectations.
Which attributes did people agree with you the most?						
Which attributes did people disagree with you the most?						
Are there some attributes for which you and others saw yourself in divergent ways, but for which others tended to agree with one another (just not you)? Why do you think this happened? Are there some common themes?						
Were there domains in which your friends and family tended to have differing views of you (regardless of how you see yourself). Why do you think this happened?						
TOTAL					total can't exceed 100%
